

Rabb Retina Study Club

Tuesday, February 27, 2024

Gleacher Center

450 North Cityfront Plaza Drive

2nd Floor, Room 200

Chicago, IL 60611

Intended Audience:

Vitreo-Retinal Specialists of the Chicago area. All attendees are encouraged to share their more challenging cases with their peers and to have open discussions of diagnosis, prevention and treatment of Vitreo-Retinal disease. Case order is first come/first to present! Ophthalmic photographers, Vitreo-Retinal fellows and residents are encouraged to attend.

Course Objectives:

Upon completing this activity, participants should be able to:

1. Relate clinical diagnosis with fluorescein and photomicrograph findings.
2. Cite established and new strategies in the diagnosis of vitreo-retinal disease.
3. Discuss management and future directions of treatment of complex vitreo-retinal disease.
4. When applicable, list methods of prevention and/or early diagnosis.
5. Assist clinicians with unknown clinical or pathologic presentations; formulate a prudent and reasonable differential diagnosis and treatment plan.

Agenda:

5:30 – 6:15pm Buffet Dinner
6:15 – 8:30 pm Challenging Case Presentations

***This Activity is co-sponsored by the University of Illinois at Chicago (UIC), Northwestern University, Rush University Medical Center, University of Chicago, and Loyola University Medical Center. The organizers from the respective institutions are Jennifer Lim, M.D., Alice Lyon, M.D., Mathew MacCumber, M.D., Seenu Hariprasad, M.D., and, Felipe De Alba, M.D.

NO CME credit is available for this meeting.
